

About our client

Our UK-based healthcare client stands as a pivotal force in the sector, prioritizing excellence in patient care and cutting-edge medical solutions. Renowned for innovation, they play a crucial role in advancing healthcare services. The client's commitment to research, collaboration with professionals, and efforts to enhance accessibility positions them as a leading contributor to the evolving landscape of healthcare in the United Kingdom.

Job Description

Job Title – Nurse:

- Recording patients’ vital signs and medical information.
- Monitoring patients, record and reporting symptoms or changes in their conditions to provide the most suitable care and advice.
- Performing routine procedures such as administering non-intravenous medications, taking blood pressure measurements and completing patients’ charts.
- Administering medications to patients, monitoring them for potential reactions or side effects and reporting to the physician.
- Assisting Surgeons during operations and emergencies.
- Creating and maintaining accurate, comprehensive healthcare records and reports of patients.
- Working with physicians and other health professionals to create personalized treatment plans for patients.
- Training and supervising Nursing Assistants and Licensed Practical Nurses.

Skills and Competencies:

- Knowledge of patient services.
- Strong organizational and interpersonal skills.
- Ability to determine appropriate course of action in more complex situations.
- Ability to work independently, exercise creativity, be attentive to detail, and maintain a positive attitude.
- Ability to manage multiple and simultaneous responsibilities and to prioritize scheduling of work.
- Ability to maintain confidentiality of all medical, financial, and legal information.
- Ability to complete work assignments accurately and in a timely manner.
- Ability to communicate effectively, both orally and in writing.
- Ability to handle difficult situations involving patients, physicians, or others in a professional manner.
